Divine Blessings to Chiranjeevi Dr. Nori Dattatreyaudu

Having made the love and affection of Viswaguru Datta his own, and with that power and grace you are a person who has reached great heights. It is Divine will that you have written your Autobiography. It is Universal Will. It is Viswa Datta's Will that you have named your Autobiography as "**Odigina Kaalam**". According to the times in life, according to the persons and circumstances with humility, patience, and tolerance you have changed time in your favor. You have gained victory over time. This should show everyone a path. It must guide everyone. You did not sway away or get discouraged when you were faced with problems and losses or did not get weakened. You did not lose hope or get depressed. With courage, self-confidence, faith in God, faith in Guru and firm determination you went forward and got victory in life.

From the time you were born, all through childhood, during student days though you faced many upheavals and difficulties, you did not give up, and you molded yourself according to the time and situation. You adjusted. You achieved life's ambition by overcoming all situations. Even after going to America if you have never become tired of any situation, or received any or criticism from anyone, it shows that you have adjusted to situations and time with lot of patience and intelligence, and you have made situations favorable to you. That is the secret of the success of your life.

Even though you were faced with obstacles and difficult situations, whether it is in spiritual field where you have constructed temples, or otherwise when some unforeseen incidents have occurred, with self-confidence, faith in God and faith in Guru you patiently bore everything and waited and eventually became victorious. The youth of today need to know this and they must be told about this. We can't achieve anything in just a moment. We must patiently wait for a long time. With patience, tolerance, and self-confidence we must work for it. "Krishi tho Naasti Durbhiksham", "Samshyatma Vinashyathe". You have understood this and have molded your life meaningfully, you have adapted to the situations in life and have gained victory over time and reached great heights and grown to a stature where you are receiving praise from everyone. This is a matter of pride for your parents. This is a matter of joy for your Guru and God.

The moment Chi. Lakshmi. Sow. Subhadra stepped into your life as your wife, was a big step towards victory in your life. Your wife, who is most cooperative, following you like your life, she is the reason for every achievement in your life. Your family with good children, your family which is very affectionate and loving is an ideal for people today. Maybe it is blessing of the Lord that is bestowed on your family for generations.

You have helped in restoring health to many eminent people who have reached great heights in different fields of life, and helped their families, and made them as your own family, that is your greatness. You are a person who is following and putting into practice my saying "Viswakutumbam" the whole world is one family, and the path shown by Sanaatana Dharma.

You are a person who wishes good health for everyone from the leader of nation to the common man. You are a person who is eager and striving hard to save the common people in the world and in India who are suffering with cancer. You have a goal in life. There is an aim. There is a plan. You have eagerness to do something in India, or America. You have enthusiasm. I wish and bless that your future intent which is guided by your plans will be realized.

I wish and bless that the Government of America, Government of India, UNO, World Health Organization (WHO) should recognize your intent and should use your services accordingly. Especially because a person like you is an Indian, and being a Telugu speaking person the Governments of the Telugu states should respond accordingly. They should recognize your services. They should use your services officially. The American government should also use your services officially. Your heartfelt desire and eagerness is to offer your services to cure cancer all over the world. I wish and bless that this should be 100 % achieved by you.

I bless you that the World Health Organization will recognize your services, recognize your intent and respond officially to use your services, My Blessings that they should use your services.

I know how much you like and love Mother and Mother's love. There is no God greater than Mother. I bless that your desire and aim to make a documentary about Mother's Love, that features the feelings of all important people, about their Mothers, should come true.

You don't forget even a single person who would have given you cooperation, and your showing your gratefulness to them brings out your special personality. You have not forgotten the great person in America, who stood by you like a father and elder and helped you. That is your personality.

This Autobiography is your heartbeat. It is a guide for today's youth. It will show direction for victory like a compass. Your autobiography tells us that to whatever stature we grow, we should be humble and being humble we should turn the situations in our favor and overcome the situations and make the time in our favor. The secret of the success of life is that "while giving in to situations, get the situation under your control." They say we have to go according to times. But it is not easy to submit to time, and make time in our favor, and make time give in to us, and make the time cooperate with us, and get victory over time and get victory in life. That is secret of success of life. That is your Autobiography.

My Divine blessings to you, your wife Chi. Lakshmi Sow. Subhadra, your family members, your brothers, sisters, and their families and to the entire Viswakutumbam. I bless you with Victory. I wish that this book should be translated into English and other important languages and should touch the heart of each and every intellectual and youth of the world and be a guide for them.
