Embodiments of Love!
Embodiments of the Divine!

Please pay close attention to what I am about to say. Preserve today's message in your heart and don't just 'try' but definitely put it into practice. This is not just a discourse. You could consider this an order, a command, a heartfelt yearning, or your Guru's heart-beating.

Many from the USA and other countries felt that there would be no birthday celebrations this year. Because within a short time, we all became conscious of the worldwide situation and learned to observe the guidelines by following all the rules. Though there were guidelines from WHO and National/State level restrictions, none of the events have stopped across the nation or world, they have continued as usual. We just have to control ourselves at the individual level. As I was about to tell this during/about this birthday, just then Raghava Sharma also came along with his wife and another family member.

Be attentive and listen careful to what I am about to say now!

Yesterday evening (Mar 3rd) all the sacred rituals were initiated and will continue until tomorrow (Mar 5th) concluding with Poornahuti. **However, if you truly want to celebrate the Birthday of this body - the one whom you all are following as Guru – what I truly want from you is to observe this day as Universal Integration and Peace day.** For that very reason, the divine grace of Universal Guru (Viswa Guru) brought this body into this world. The power that is working through this body is Universal Power/ Universal Yogic Power/Universal Guru's Power. According to the Will of that very same power, this body has completed 77 years and is entering the 78th year today. What is the purpose of this body? What is left to do after 77 years? As ordained by Viswa Guru, the very aim and goal of this body is to promote Universal Integration and Peace - by uniting everyone, and most importantly all the intellectuals.

Firstly, we all should empower ourselves, then only we can share it with others. If we are healthy then only we can make others healthy. If we are financially strong then only we can help others financially. For the very same reason I have always been stressing on the importance of self-empowerment. But no one is understanding the importance of all this.

Frist make yourself powerful! Each of you should first become strong Physically, Mentally, Financially, Socially and Spiritually. All these five strengths are very essential for everyone. That is when we will become powerful and divine and make our nation strong.

Never ever neglect your family. We should make our family an abode of bliss and an epicenter of Integrity. Then certainly, Lord Srinivasa will come and reside in your homes. If you make our home a Viswa Mandiram (Universal Temple) then Lord Vishnu himself will descend and reside there.

Initially we thought of not having any cultural programs. When Sathyanarayana [Kuchipudi dancer/teacher/choreographer] called me and asked, I told him no cultural programs this year. After requesting Amma [Smt. Eshwari w/o Sri Akula Koteswara Rao], today they performed Mohini-Bhasmasura dance-drama. I felt very happy to see this because I referred to the same story during my 60th Birthday celebrations.

Listen carefully! I accepted this mike to speak today only after taking permission from Amma and the Doctor [Dr. Surya Prakash of VIMS hospital]. Without consulting the doctor, I don't do anything even when I am visiting the USA. If we want to be ideal to others, first we should follow the guidelines.

Now I briefly share the gist of the story (Mohini-Bhasmasura). This is the very aim and goal of today's discourse.

When demon Bhasmasura did great penance Lord Shiva appeared and granted him the boon of eternal life. But Bhasmasura did not just seek eternal life. His penance had shaken all three worlds and he sought more. *When I place my hand on someone's hand, they should turn into ashes.* This was the added boon he sought from Lord Shiva who granted it to him without any question. However, Bhasmasura wanted to test his newly-granted powers on Lord Shiva himself. Meanwhile, Lord Vishnu came to the rescue by appearing in the form of Mohini, a beautiful lady, who entices him to dance like her. In the process, she makes Bhasmasura put his hand over his own head and thus his tyranny comes to an end.

What is the moral of this story? Listen carefully, this is what I wanted to emphasize.

Today, man is ignoring the Nature, which is the true embodiment of God. Not only ignoring but also destroying it. If you try to mess with Nature then you are the one who will be destroyed. Do you aim for your own destruction or protection? This is the very essence of the story Mohini-Bhasmasura.

This very story was part of the discourse during the 60th birthday celebrations. Today I felt very happy to watch this again. This was Amma's Will.

All intellectuals should think and talk about this. Don't worry about the 80-90% people but focus on the 10% of the intellectuals who are commanding the rest of the 90% of people. If we can Unite and Integrate these 10-20% of intellectuals who are of various castes, races, and religions from all over the world – especially the scientists – we can certainly bring welfare to the whole world.

I am giving a warning and cautioning from an enlightened state with the power in this. Be careful!

God has bestowed you with tremendous intellectual power. Why has he given it to us? To help humankind live comfortably and happily. Also, to find cures to death-causing diseases we should use our intelligence. To create happiness. But not to use it for destructive reasons. BE CAREFUL!

For the past 2 years everyone is suffering. Who is responsible? God? No! Is it Nature? No! We ourselves have secretly invented and concealed this virus. It leaked and led to today's deadly situation. If this same virus is released on a country during wartime, just think what will happen? I am requesting and imploring all intellectuals and scientists to think about the consequences.

Here is an appeal to all the scientists and intellects: do not use your intellectual power and scientific knowledge to invent destructive things. All the well-established and financially strong corporate/business leaders should unitedly warn the leaders of the worlds. Unity among the intellectuals is absolutely necessary and of crucial importance today.

Nature is the very personification of supreme divinity. Our Sanatana Dharma emphasizes that the entire Universe is the form of Lord Vishnu. But, we are ignoring nature and thinking of something else.

You all are doing 77th Birthday celebrations to this body. But, I am not considering this as 77th year. The power residing in this body doesn't have birth or death. It is infinite and eternal. No one can comprehend its age. This power is continually regenerative. This is the essence of Eternity and Eternal Power. The power of mantra.

Mantra is very powerful!

A girl from USA called me one time and said “*Please tell me Mantram Swami thaatha (Grandfather), that itself is enough and I want nothing else.*” See the conviction of this girl!

Yes, Mantra is enough. Mantra is enough. We can achieve anything through Mantra. *Om Sri Sairam Gurudeva Datta* is not an ordinary Mantra. I have given this Mantra by integrating and embedding all divine powers within it.

**Love Nature. Serve Nature
Love your wife, your husband, and your children.
Make your home an abode of bliss. Make your house a HOME**

We are constructing houses and we are affectionate towards the houses. It is fine to beautify the house by decorating and painting the interior and exterior etc. But my ambition and appeal is that you should think how to make the house a home.

The people who are living in the house, if they have Cooperation and Coordination, Affection and Love and if they live Happily then that is a home. That is what Viswayogi Viswamjee desires from you. That is the desire of Sanatana Dharma. Do not criticize or neglect your ancestry or family. You may have certain drawbacks within yourselves and within the family. But, make an effort to strengthen each other and create harmony amongst yourselves in your hearts and minds. You can help others only when you become strong yourself.

Do you know what the Divine Power of the Guru is capable of? It can transform a person, living in a small hut by the lake, into a world famous billionaire within a span of 10-20 years. That is the Guru Power. Guru may appear to be doing nothing. But through his power he sends powerful vibrations from his heart to all and transforms them. This is the essence of Sanatana Dharma and Guru Dharma.

Whether you believe it or not, I have said this so many times:

India will elevate to the status of a Guru and lead the whole world. Today this has come true. In future, for the whole world, Peace, Health and Happiness will emanate only from India and not from anywhere else.

With my heartiest divine blessings to you all, I am revealing one more thing to you:

From today onwards, my true mission will commence and my efforts will intensify to promote the Vision and Mission of Universal Integration and Peace. And how to protect the Nature. Though it is not necessary to travel, I will have to visit other countries in physical form to Inspire and Unify all the intellects across the world and to bring about Peace between them. To perform all this I am moving ahead with a specific plan.

Hearty divine blessing to you all!!

Since the inception of Universal integration pillar, its inauguration, and everything to date, it is Amma's Vision and Will how different activities, big or small, have been planned and executed. I am giving all my authority to Amma. **The degree of value and respect you are giving me, similarly, you all should value and respect Amma and Amma's family too.** Of course, you all are already doing this. Not just that. I have already told you that VIMS is a Birthday gift to Madhuri. Many doctors are relentlessly

working hard for the hospital: Dr. Nori, Dr. Surya Prakash, Sreenivas, Satyanarayana (even if he is no more now), Prakash, Rajeshwari, coming from there (USA) also, Rajsekhar, Ramakrishna, etc, etc, there are many doctors who are all working together. We can achieve anything and gain success with Unity. Raghava Sharma (among those who are here now), Vijaya, diabetic doctor Padmavati, etc, like this there are many others.

VIMS is the unified effort of many, many doctors. Everyone should provide their support and services to the hospital. First, you earn. Not just 10,000 Crores but 100,000 Crores.

You should become very powerful and bring welfare to the world.

With divine blessing to you all, I conclude today's discourse!!

All these events and programs will be taken forward in the future through Amma and Koteswara Rao's family, Madhuri's family, Dr. Nori and other doctors who will all cooperate and coordinate...Dr. Lakshmi, Dr. Srinivas Reddy, many doctors in USA...Raj Dave (cardiologist), Srinu Gangaswamy, so many more...if you just think anything is possible and we can be successful. **Next year, we will review what we have done to make ourselves strong and powerful.** With that, I convey my divine blessings to all of you and wish you grand success.

Our Goal is *Viswa Shreyassu* (Universal Well-being)
Our Goal is *Viswa Manava Samaikyatha* (Universal Integration)
Our Goal is *Viswa Shanti* (Universal Peace)
Our Goal is *Viswa Kalyanam* (Universal Prosperity)

My divine blessings to you all. I will have a separate video message prepared specifically for you. In these trying circumstances, following all my instructions, these events have been conducted very well yesterday and today and will be conducted well tomorrow also. My divine blessing to you all. **May all your family members – your daughters, your son-in-laws, your daughter-in-laws, your grandsons and grand-daughters, each and every one – they are all my responsibility and I will make them all successful. You do not need to doubt anything. It is my responsibility. My divine blessings to each and everyone of you.**
